Alternative Diesel Fuels Regulation

Reporting Summary – 2018

The Alternative Diesel Fuels (ADF) regulation, which became effective January 1, 2016, requires regulated parties to report produced, imported, and blended amounts of all biodiesel blendstock and the biodiesel blends produced. The table below is a summary of ADF reporting in 2018 and shows the volumes of B100/B99 blendstock imported and produced as well as the percentages of B100/B99 blendstock blended to produce final blends of B20 and below.

Alternative Diesel Fuels Reporting Summary 2018

	Total B100/B99 Volume Imported/Produced	Percentage of B100/B99 blended to produce B5	Percentage of B100/B99 blended to produce B10	Percentage of B100/B99 blended to produce B15	Percentage of B100/B99 blended to produce B20
2018 Q1	35,393,869	77.3%	10.6%	6.0%	6.0%
2018 Q2	38,840,927	65.1%	1.8%	6.2%	26.9%
2018 Q3	48,595,306	62.5%	0.4%	2.5%	34.5%
2018 Q4	52,574,500	64.8%	0.8%	5.5%	28.9%
Total	175,404,601	66.6%	2.8%	4.9%	25.7%
