

APPENDIX G.

CALIFORNIA ENVIRONMENTAL QUALITY ACT – ENVIRONMENTAL ANALYSIS

A Draft Environmental Analysis was released as Appendix G in the *Draft Community Air Protection Blueprint for Selecting Communities, Preparing Community Emissions Reduction Programs, Identifying Statewide Strategies, and Conducting Community Air Monitoring*¹ on June 7, 2018 for a 45-day comment period, which ended on July 23, 2018. The Draft Environmental Analysis was not recirculated for an additional comment period as the edits made to this Blueprint and Final Environmental Analysis do not include significant new information that would require recirculation of the Draft Environmental Analysis, pursuant to California Code of Regulations, title 14, Section 15088.5.

The Environmental Analysis for the Community Air Protection Program (Program) is intended to disclose potential environmental impacts and identify potential mitigation specific to the Program. In some cases, as described in Chapter 4 of the Draft Environmental Analysis, potentially significant environmental effects may occur as a result of compliance actions taken in response to the Program. Mitigation measures are described in the Final Environmental Analysis that could be expected to reduce potentially significant impacts to less-than-significant levels, for individual projects, if agencies with discretionary authority adopt the mitigation measures. The Final Environmental Analysis takes the conservative approach in its post-mitigation significance conclusions (i.e., tending to overstate the risk that feasible mitigation may not be sufficient or may not be implemented by other parties) and discloses, for purposes of compliance with the California Environmental Quality Act, that potentially significant environmental impacts may be unavoidable.

A Final Environmental Analysis, Response to Comments on the Draft Environmental Analysis, and Supplemental Response to Comments on the Draft Environmental Analysis were publicly released prior to the CARB Governing Board consideration of this Blueprint document.

The Final Environmental Analysis, Response to Comments, and Supplemental Response to Comments are provided as stand-alone documents for the Program, and are located on CARB's webpage at: <https://ww2.arb.ca.gov/our-work/programs/Community-Air-Protection-Program>.
