Meeting Goals: Achieving carbon neutrality by mid-century will require extensive mitigation of energy-related greenhouse gas emissions. Energy and Environmental Economics (E3) will present a study analyzing scenarios California could take to help achieve carbon neutrality by 2045, each with unique tradeoffs and externalities.

The report will be available at [Carbon Neutrality Meetings and Workshops](#) prior to the workshop.

- 10:00** **Welcome and Overview**
- 10:15** **Overview of “Achieving Carbon Neutrality in California” Report**
Amber Mahone, Partner, Energy and Environmental Economics
- 11:00** **Questions and Discussion**
- 11:45** **Closing Remarks and Adjourn**
