

LACDPH's Five Point Plan to Reduce the Health Impacts of Climate Change

Inform

...and engage the general public about the nature of climate change and the health co-benefits associated with taking action to reduce carbon emissions.

Promote

...local planning, land use, transportation, water, and energy policies that reduce carbon emissions and support the design of healthy and sustainable communities.

Provide

...guidance on climate preparedness to local government and community partners to reduce health risks and create more resilient communities.

Build

...the capacity of Departmental staff and programs to monitor health impacts, integrate climate preparedness, and improve climate response.

Adopt

...best management practices to reduce carbon emissions associated with Departmental facilities and internal operations.
