Alternative Diesel Fuels Regulation

Reporting Summary – 2020

The Alternative Diesel Fuels (ADF) regulation, which became effective January 1, 2016, requires regulated parties to report produced, imported, and blended amounts of all biodiesel blendstock and the biodiesel blends produced. The table below is a summary of ADF reporting in 2020 and shows the volumes of B100/B99 blendstock imported and produced, as well as the percentages of B100/B99 blendstock blended to produce final blends of B20 and below.

Alternative Diesel Fuels Reporting Summary 2020

	Total B100/B99 Volume Imported/Produced	Percentage of B100/B99 blended to produce B5	Percentage of B100/B99 blended to produce B10	Percentage of B100/B99 blended to produce B15	Percentage of B100/B99 blended to produce B20
2020 Q1	48,830,920	58.6%	1.8%	6.2%	33.4%
2020 Q2	46,459,202	53.8%	2.5%	5.8%	37.9%
2020 Q3	52,864,170	48.7%	1.6%	7.7%	41.9%
2020 Q4	59,990,367	51.1%	3.4%	8.7%	36.8%
Total	208,144,659	52.6%	2.3%	7.2%	37.8%
