

September 14, 2022

There were no applicants for the September 28, 2022 greenhouse gas (GHG) allowance reserve sale (September 2022 Reserve Sale #26). Therefore, the California Air Resources Board (CARB) will not be holding the September 2022 Reserve Sale #26.

Except for the Reserve sale immediately preceding the compliance obligation instrument surrender deadline on November 1, a reserve sale will only be offered if the Current Auction held in the preceding quarter resulted in a settlement price greater than or equal to 60% of the lowest Reserve tier price. A Reserve Sale Notice will be posted approximately 30 days prior to the scheduled date.

The number of Reserve allowances potentially available and the tier prices in effect during 2023 will be provided in the 2023 Annual Allowance Price Containment Reserve Notice that will be available in December 2022 on the [Reserve Sale Information](#) webpage.

Background: The California Cap-and-Trade Program includes an Allowance Price Containment Reserve available to California covered entities and opt-in covered entities. More information about the reserve sales is available on the [Reserve Sale Information](#) webpage.
