(Cal. Code Regs., tit.17, § 95381.)

PENALTY BASIS

- (30) Per Unit Penalty. The per unit penalty in this case is a maximum of ten thousand nine hundred and ten dollars (\$10,910.00 USD) per day under Health and Safety Code section 38580 for violations of the RMP Regulation (Cal. Code Regs., tit.17, § 95380 et seq.). The penalty of sixteen thousand one hundred and sixty dollars (\$16,160.00 USD) is for failure to provide onsite records at time of inspection in 2019 and failed to calibrate Automatic Leak Detection Systems in 2020 at three locations, over an unspecified number of days.
- (31) Emissions. The provisions cited above do not prohibit emissions above a specified level. Without more information, it is not practicable to quantify the excess emissions. However, since CARB has alleged that PAQ, Inc. did not meet the regulatory requirements, all of the emissions from it were excess and illegal.
- (32) Aggravating and Mitigating Factors. The penalties in this matter were determined in consideration of all relevant circumstances, including statutory factors as described in CARB's Enforcement Policy. CARB considered whether the violator came into compliance quickly and cooperated with the investigation; the extent of harm to public health, safety and welfare; nature and persistence of the violation,

including the magnitude of the excess emissions; compliance history; preventative efforts taken; innovative nature and the magnitude of the effort required to comply, and the accuracy, reproducibility, and repeatability of the available test methods; efforts to attain, or provide for, compliance prior to violation; action taken to mitigate the violation; financial burden to the violator; and voluntary disclosure. The penalties are set at levels sufficient to deter violations, to remove any economic benefit or unfair advantage from noncompliance, to obtain swift compliance, and the potential costs, risks, and uncertainty associated with litigation. Penalties in future cases might be smaller or larger depending on the unique circumstances of the case.

(33) Confidential Business Information. CARB based this penalty in part on confidential business information provided by PAQ, Inc. and confidential settlement communications, neither of which are retained by CARB in the ordinary course of business.
