Alternative Diesel Fuels Regulation

Reporting Summary – 2023

The Alternative Diesel Fuels (ADF) regulation, which became effective January 1, 2016, requires regulated parties to report produced, imported, and blended amounts of all biodiesel blendstock and the biodiesel blends produced. The table below is a summary of ADF reporting in 2023 and shows the volumes of B100/B99 blendstock imported and produced, as well as the percentages of B100/B99 blendstock blended to produce final blends of B20 and below.

Alternative Diesel Fuels Reporting Summary 2023

	Total B100/B99 Volume Imported/Produced	Percentage of B100/B99 blended to produce B5	Percentage of B100/B99 blended to produce B10	Percentage of B100/B99 blended to produce B15	Percentage of B100/B99 blended to produce B20
2023 Q1	57,590,153	34.4%	4.9%	13.1%	47.6%
2023 Q2	46,560,118	30.9%	0.7%	10.8%	57.7%
2023 Q3	46,564,187	27.7%	0.8%	3.7%	67.7%
2023 Q4	64,880,132	29.1%	2.2%	6.2%	62.4%
Total	215,594,590	30.4%	2.0%	8.3%	59.2%
