

Facility List

Table 1 identifies all 73 facilities to be included in this review. This list consists of 53 facilities identified by the Central Valley Air Quality Coalition (CVAQ) and 20 facilities identified by CARB staff with ten tons or more of directly emitted PM2.5 per year.

The compliance survey will include all 73 facilities. In contrast, the permit survey has been refined to include only facilities within AB617 communities, facilities requiring continuous emission monitoring, and facilities with the most significant NOx and fine particulate matter emissions not included in the previous categories.

Table 1: List of facilities included

List #	Facility Name	Facility ID	Included in Compliance Survey	Included in Permit Survey
1	3 Brand Cattle Co	S-4982	<input checked="" type="checkbox"/>	
2	Aera Energy LLC	C-1121	<input checked="" type="checkbox"/>	
3	Aera Energy LLC	S-1135	<input checked="" type="checkbox"/>
