

## California Cap-and-Trade Program May 2025 Joint Auction #43

### California Post Joint Auction Public Proceeds Report

#### Background

The California Air Resources Board (CARB) and Québec's ministère de l'Environnement, de la Lutte contre les changements climatiques, de la Faune et des Parcs (MELCCFP)<sup>1</sup> held a joint auction of greenhouse gas (GHG) allowances on May 21, 2025. The auction included a Current Auction of 2023 and 2025 vintage allowances and an Advance Auction of 2028 vintage allowances. CARB and MELCCFP approved the results of the auction and issued a Joint Auction Summary Results Report on May 29, 2025. This California Post Joint Auction Public Proceeds Report provides information regarding proceeds to the State of California from the sale of allowances in the Current Auction and Advance Auction, as described in the Joint Auction Summary Results Report. The information provided in this report provides program transparency while also maintaining the confidentiality of individual auction participants' market positions.

The Joint Auction Summary Results Report did not include the auction proceeds because of the need to complete the currency exchange required to determine final proceeds payments in a joint auction. Winning bids were submitted in one of two currencies - United States dollars (USD) or Canadian dollars (CAD). When the Financial Services Administrator distributes proceeds to the jurisdictions, California must receive auction proceeds only in USD and Québec must receive auction proceeds only in CAD. Consequently, after receiving payment from all winning bidders, and based on instructions from the jurisdictions, the Financial Services Administrator exchanged an amount of currency at prevailing market rates prior to transferring the auction proceeds to the jurisdictions. The total amount of auction proceeds received by California and Québec from the sale of state- and province-owned allowances reflects the exchange rates available prior to the time of distribution of auction proceeds, to the extent that currency had to be exchanged prior to this distribution.

The average effective exchange rate to complete the currency exchange required for final distribution of auction proceeds for this auction was 1.3788 CAD to one USD.<sup>2</sup>

As indicated in the Joint Auction Summary Results Report, and as provided for in the California Cap-and-Trade Regulation, sellers who consigned allowances in this auction are paid the auction settlement price in USD for every consigned allowance sold. The Auction Exchange Rate for this auction was 1.3935 CAD to one USD.

Auction proceeds resulting from the sale of California-owned allowances and consigned allowances in the May 2025 Joint Auction #43 are shown on the following page.
