

Agenda: Public Workshop for the California Climate Investments Fifth Triennial Investment Plan

February 15, 2024, 3:00 p.m. - 4:30 p.m. PST

The California Air Resources Board (CARB) invites you to participate in a public workshop on the development of the Cap-and-Trade Auction Proceeds Fifth Triennial Investment Plan (Investment Plan). The Investment Plan is a document that provides guidance to the Legislature regarding the investment of Cap-and-Trade auction proceeds.

The Fifth Investment Plan will cover Fiscal Years 2025-26 through 2027-28 and is due to the Legislature in January 2025. Investment recommendations identified in the Investment Plan do not guarantee funding but rather provide guidance to the Legislature on potential funding priorities. This initial public workshop provides the public with an opportunity to learn more and share early input on investment priorities for consideration in the Investment Plan.

Zoom Webinar Instructions:

- [Register for the meeting here](#)
